Task-4

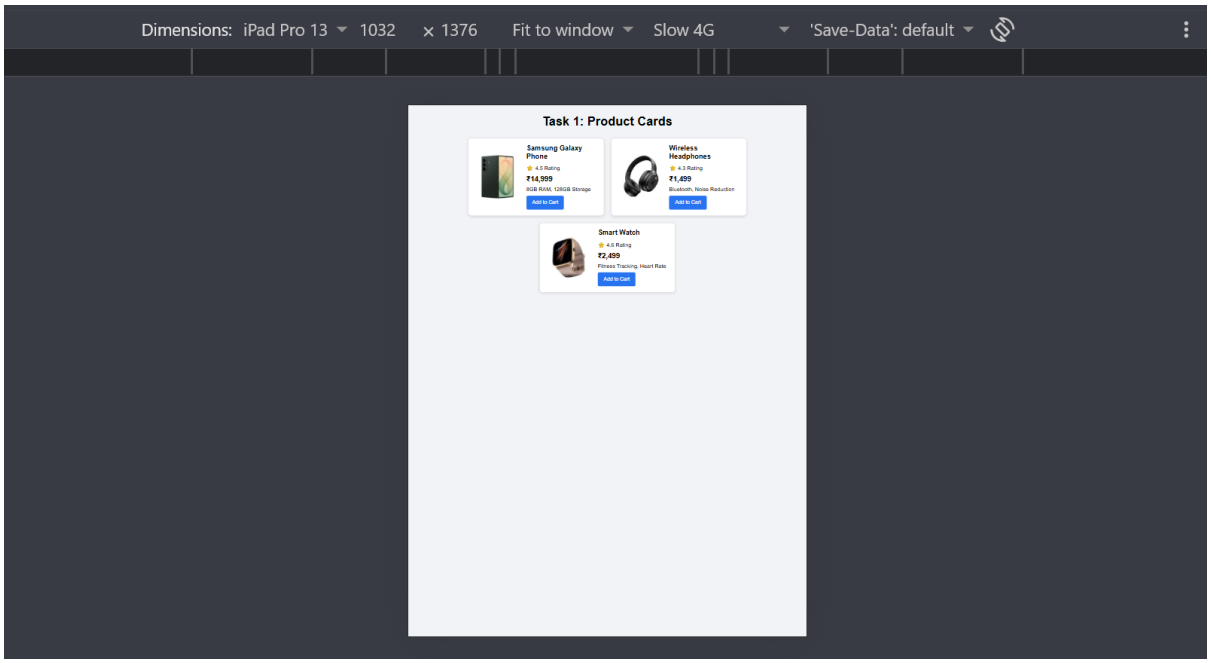

1 Desktop view (1506px)

The three product cards are displayed horizontally. The product images and details appear side by side, with sufficient spacing and padding. The layout looks clear and readable on a large screen

2 Tablet View (1032px)

The product cards adjust to the available screen width. Two cards appear in the first row, and the third card appears in the next row. The layout remains organized and readable

3 Mobile View (440px)

The three product cards are displayed vertically, one below another. The product images appear above the details, and the font size and padding are adjusted for the smaller screen
